

AQUA FLUSH

Aqua Flush

Enjoy the comforts of an executive washroom complete with fresh running water.

Mr. John's Aqua Flush system supplies fresh water to locations where water is otherwise unavailable. It's the perfect accessory for office trailers, food service trailers, tool cribs, lunch rooms, portable showers, sinks and fresh-water flush portable toilets.

The flexible Aqua Flush system can be customized to accommodate customer needs and provide non-potable water for flush toilets and running sinks. No running water or sewer hook ups are needed and minimal space is required for installation. For added convenience our certified field technicians can fill the freshwater tank and from the exterior of the trailer.
