

## Urinal

The Mr. John urinal unit is an ideal piece of equipment for events with large crowds. The urinal unit helps to offset long lines and overuse of any additional restroom facilities. The large interior space and capacity for a higher volume of traffic makes the urinal unit a key addition to any special event. The urinal unit has a capacity of six (6) simultaneous users and is good for up to 1,000 uses before service is required.

### Features:

- \* Two troughs (three users per trough)

### Specifications:

- \* Height: 90.75"
- \* Width: 77"
- \* Depth: 77"
- \* Trough height: 21"
- \* Average number of uses: 1,000
- \* Weight: 430 lbs.
