

10' Storage Container

Tri-Boro Trailer's 8x10 storage containers are safe, convenient, and small enough to fit in a standard parking spot. Store your materials in easy to access locations for maximum cost savings.

Ground level containers are constructed of durable heavy-duty steel, yielding a maximum level of protection. Each unit offers convenient access without the need for steps, and the simple installation process requires minimal time for set up and tear down.

For construction, commercial, industrial, retail, or municipal or personal use, these storage containers are a great solution for temporary storage space.
